

AMENDMENTS TO THE SPECIFICATION:

Please replace paragraph [27] with the following amended paragraph:

[27] Thus, wing 54 twists and snaps into slot 56. Cutouts 60 permit wing 54 to be molded with no additional actions or complexities in the injection mold tools. To disengage the connector, wing 54 may be twisted in a direction to line the edge of the wing with the slot 56, opposite the direction of arrow C of Figure [[9]] 5, and then pushing wing 54 through slot 56.
